To: Managers, Greater Yellowstone Coordinating CommitteeFrom: David Diamond, GYCC Executive Coordinator

Subject: FY 2021 GYCC Project Selection

I am pleased to announce the projects selected by the Greater Yellowstone Coordinating Committee (GYCC) to receive funding for fiscal year 2021. For FY21, 14 projects are approved for funding in amounts ranging from \$4,870 to \$25,000, for a total pool of \$167,000 from GYCC, and one additional project was approved and will be funded by Yellowstone NP for \$24,890. These awards are contingent on actual FY21 agency budgets.

The GYCC has established long term strategic goals of *Ecosystem Health*, and *Connecting People to the Land*, with near term focus areas of *visitor and community use*, and *wildlife migration*. The GYCC executives made final decisions after reviewing evaluations from the subcommittees and the GYCC Coordinator, using the following criteria:

- Strategic fit: How well does the project address GYCC priorities?
- Scope: To what extent does the project build partnerships and leverage funds?
- Leverage resources: To what extent does the project result in internal partnerships between units or result in wide-scale benefits for the Greater Yellowstone Area?
- Awareness: How well does this project increase public awareness of the crossboundary coordination of the GYCC and subcommittees?

I will work with your staff to prepare agreements and other necessary documentation needed to make funds available for each project.

Once again, I thank all who prepared a proposal. Many more excellent projects were submitted than could be funded, and I extend my sincere thanks to all who participated in the subcommittee review of proposals. I look forward to the results of the 2021 GYCC projects.

Sincerely,

18/

David Diamond Executive Coordinator, Greater Yellowstone Coordinating Committee
